Dangerous words  
There is no list  
And everybody makes mistakes  
I don't want to hurt you  
But I don't play the scrabble game  
Perfectly well  
Dangerous words  
They fence me in  
The passion's big the pressure's high  
I don't deny my brain can crash  
While my spider legs are in perfect control  
I wish I could read your protocol  
These are just faults  
Faults aren't prophetic  
I wish you could read my protocol  
These are just faults  
Faults aren't prophetic  
Words  
There is no list  
And everybody makes mistakes  
I don't want to hurt you  
But I don't play the scrabble game  
Perfectly well
