How To Drain The Swamp  
Forgetting ain't easy  
Expelling all the love you lived for  
How To Drain The Swamp  
Burning opportunities given  
Blowing up the main square ain't easy  
How can I smoke you out of your holes  
And put you on the mantle shelf  
Give you a place in my heart  
A place that's easy  
A place where you can rest the rest  
Of the days ahead  
A place to remember  
A place from the past  
How To Drain The Swamp  
Obsessions are like insects  
When you chop off the head  
The body keeps on teasing you  
How to drain the swamp  
When sadness can only sweeten  
When a wound is a flower  
That grows in every season  
How can I teach you what I've learned  
Now that schools are out forever  
I'm preaching in a church  
Without believers  
A church where I confess  
I dindn't do anything but my best  
A church to sing in  
A church to believe in  
When war is over  
The earth still smokes  
I see you swaying with your guns  
While all excitement is long gone  
Baby please please go  
Now watch me close, baby  
Here I go  
Flying high on broken wings  
While other birds joyfully sing  
Old winds won't blow again
