"Love Should Be Fun"

Now all systems
Become undone
It becomes risky
To blame it on the lack of sunshine
Hate becomes history
We said. Love should be fun
A beautiful engine
That should run without fuel
Even a mule runs faster than we do
I carefully listen
To voices inside
Intuition should shine a light
On our stalemate
It all looked simple
Love should be fun
A beautiful engine
That should run without fuel
Even a mule runs faster than we do
Now all we have to do
Is to break the engine into two
Run without fuel
Even a mule runs faster than we do
Now all we have to do
Is to break the engine into two
Into two..into two..into two...
