"The Belong Song"

Visit "[The Belong Song](#)" on MotoLyrics.com

I often said I don't belong here
I often said I don't belong
I often said I won't be
I often said I won't be long here
I often said I'm going nowhere
I often said I'm going now
I often said I'm going
I often said I'm growing stronger
Than anyone can bear
What I say can be done
Come what may
Say the sun shines
I often said there must be something wrong here
I often said I can really love you
I often said I can really love
I often said I can really
I often said I'm really fond of
The sweet dreams we share
What I say can be done (3x)
Come what may
Say the sun shines
I often said there must be something wrong hereTHE
