I'd like to say I'm better now,
I'd like to say I'm fine.
I try to move past what we had,
You're always on my mind.
Was it me or was it you,
Problems left unsolved,
It seems you have forgot.

So sick and tired, So used and restless.
Three words soft spoken, I won't forget them.
So many regrets, Things left unsaid,
If it means being with you I'd do it all again.

And all the lies were evident,
But your smile blinded me.
Everything lost it's appeal,
It's you i want to see.
Now it's done and over with,
You left me with a bruise.
I'm very glad you misled me,
'Cuz anything was better than the truth.

So sick and tired, So used and restless.
Three words soft spoken, I won't forget them.
So many regrets, Things left unsaid,
If it means being with you I'd do it all again.

Can someone save me from this awkward situation,
My heart sinks deeper with the slightest touch.
When falling further is the only destination,
I stand here helpless and I can't do much.
When falling further is the only destination,
I stand here helpless and I can't do much.

So sick and tired, So used and restless.
Three words soft spoken, I won't forget them.
So many regrets, Things left unsaid,
If it means being with you I'd do it all again.
So sick and tired, So used and restless.
Three words soft spoken, I won't forget them.
So many regrets, Things left unsaid,
If it means being with you I'd do it all again.

Can someone save me from this awkward situation?
