Last night I had a desparate dream
I was standing in the winter rain
Footsteps close behind me
Somebody called out my name

No magic mirror can erase
These lines of living on my face
Lessons learned and lost

CHORUS:

Take my life
Into my own hands
Make this world
Into my own land
Take this life
I'll take my stand
Take this world
Into my own hands

I was walking in the summer sun
Thinknig that my life had just begun
How wrong could I be

CHORUS
