Is this a world of strangers  
A cold and cruel life  
Or can I call this place my home  
I'll step into the danger  
If only for one night  
I can't keep living all alone  
This time you could be my only one  
This time we've gotta take a chance  
'Cause you and I are

### CHORUS:

Partners in crime  
Caught between what's right and wrong  
We're two of a kind  
Partners in crime  
When you think you can't go on  
You'll reach out and find  
Together we survive

I can't control the anger  
These feelings deep inside  
It makes my body feel so cold  
I've searched too many places  
Too many desperate nights  
I need someone like you to hold  
This time you could be my only one  
This time we've gotta take a chance  
'Cause you and I are

### CHORUS
