Through all the ragged truth  
You left one poignant lie  
A nice series of words for goodbye

Who's playing on your team  
He has a certain flair  
I don't see you around anywhere

CHORUS:

I cry when you're not here  
I keep crying tangent tears  
I cry when you're not here  
I'm crying tangent tears

I'm stuck on interphase  
My heart does not forget  
Checking out at this point is no sweat

Chill factor number nine  
You made my heart go blind  
You act so cold but you still look so fine

REPEAT CHORUS
