Hi dear, what's on tonight  
Let's stay up and watch the tube  
And bask in the big blue light  
Bye bye real life  
Checking into checking out  
It's saturation time

Perfect faces  
Perfect background  
Perfect everything

CHORUS:

I want to live in a dream that's never ending  
I want to love all the wasted time I'm spending  
Tonight I can take it all away  
Because tonight I'm everything I wanted to be

Well dear  
It's a good thing  
I don't have to look at you  
And you don't have to look at me  
I think that's a good thing

We're perfect strangers  
Perfect oh oh oh oh  
Perfect everything

CHORUS
