in the ancient forest a funeral...  
king and lord, fell into oblivion  
he fell asleep...  
and when they buried him, there was no thunder in the  
sky  
his people didn't mourn him, there were no tears,  
horns never played  
only few old men, were humming mysterious melody,  
when wooden stake  
got consumed by flames, his ashes were buried in  
silence...  
at the grave you can see, only one human shape, a  
person that suddenly  
interrupts silent peace of this night, screaming: forgive  
me, father!  
from this day my name is folkien!
