Across the seas of fire  
Across the seas of ice  
We sail towards the lands  
That once belonged to us

Thor's on our side  
No fear have to have  
Valhalla's our fate  
When death calls us all

Through the mist and cold  
Prepared for the war  
Our hearts are made of stone  
Soulless we were born

The shores of the coast  
To red will be turned  
Blood shall be spelt  
Our will shall be fulfilled

Pain- Cruelty- Desolation- Death

No matter who you are  
Man, woman or child  
No pity we will have  
Death's what you will find

And through the vast lands they advance unstoppable  
Seeding desolation, fear and death  
Burning villages erased from the world  
Elric's domain shall rise again

The ashes cover the world  
Thy empire is mine again  
My hordes punish the ones  
That betrayed me long time ago
