Jesus look down from your Sanctuary high
Do not restrain the yearnings of Your heart
Your zeal, Your mercy, Your might
Rend the heavens and come down, come down, come
down
And that the mountains would melt like wax

Jesus of Nazareth
A Jewish man
Son of David
Slain lamb
Return, return, return, return, return

You came as a baby
You were born in Bethlehem
Not just a prophet
You are You are the great I am

Oh that You would come
Return to Your creation
King of Kings and Lord of Lords
Desire of the nations
Return, return, return

Oh how we want You to come
Oh how we want You to come
Oh how we want You to come
Oh how we want You to come
Just come
(Repeat)

It's not just revival that I'm yearning for
