I knew what I was getting into when called you.  
I knew what I was getting into when I said your name,  
but I said it just the same.  
I knew what I was getting into and I still want you.  
I knew what I was getting into.

I knew what I was getting into and I still chose you.  
I knew what I was getting into and I still want you.  
I knew what I was getting into when I said your name,  
but I said it just the same.  
I knew what I was getting into.

And I am not shocked by your weakness.  
And I am not shocked even by your sin.  
And I am not shocked by your brokenness.

I knew what I was getting into and I still want you.  
I knew what I was getting into and I still like you.  
I knew what I was getting into and I still chose you.

Cuz only I can see the end from the beginning.  
And only I can see where this is going.  
And only I can see the end from the beginning.  
And I see in you the seeds of love.  
And I see in you strength when all you see is your  
failure and all you feel is ashamed.  
I can see deeper than that.  
I know you better than that.

I knew what I was getting into when called you.  
I knew what I was getting into when I said your name.  
I said it just the same.  
I knew what getting into and I still want you.  
I knew what I was getting into and I still like you.

Your only at the beginning.  
You've only just begun and I know where you are going  
And all you can see in the moment is that your hurting.  
And all you can see in the moment is that your aching.

I knew what I was getting into when I called you.

I knew what I was getting into and I still want you.  
I knew what I was getting into and I still like you.  
I knew what I was getting into when I called you.

Just don't give up.  
And don't give in.  
If you don't quit. You win, you win.

Just don't give up.  
And don't give in.  
If you don't quit. You win, you win.

Everything is in my hands.  
It's going to be alright.  
Everything is in my hands.  
It's going to be alright.  
It's going to be okay.  
Everything is in my hands.  
It's going to be alright.  
It's going to be Okay.  
And you don't have to pretend to be something or  
someone your not.  
Cuz I know you better than that, even better, even  
better than that.  
Listen my Beloved.

I knew what I was getting into when I called you.  
I knew what I was getting into when I said your name.  
I said it just the same.  
I knew what I was getting into and I still like you.  
I knew what I was getting into and I still chose you.
