

Misty Edwards "Intercession"

Visit "[Intercession](#)" on MotoLyrics.com

We are in love with you and we want you more than so-called peace

Peace, peace, when there is no peace

And we want you more, want you more than all these things

We are those who cry out for your return

Jesus of Nazareth that you would come and set up your kingdom

We are those who awaken the dawn with our song

Though we meditate in terror still we press on

For we are those who have heard Your voice in the middle of the night

We are those who have heard the invitation to arise

To arise, so give us the grace to stand with You to the end of time

To the end of time, to the end of time, yeah

Take away the fear, take away the unbelief

Take away the fear, the insecurities

And let perfect love come

Let perfect love wash away

Let perfect love cast away all our fear

Let perfect love be the anger of our souls

Let perfect love wash away all our fear

Let perfect love sweep away all our doubts

Let perfect love wash away all our fear

Let perfect love be the seal on our hearts

For you will give us grace, you will give us grace
