"Measure Of A Man"

Visit "[Measure Of A Man](#)" on MotoLyrics.com

The measure of a man is the measure of his heart
The measure of a man is the measure of his love
[x2]

You don't measure me like man may see
You're looking at my heart, the core of me
Your eyes of fire see differently
Keep me in the gaze of love

The measure of a man is the measure of his heart
The measure of a man is the measure of his love
[x2]

When it's all been said, when it's all been done
When the race is run, well it all comes down to love

Did you learn to love? That's what You will ask of me
Did you learn to love? Not about my ministry
Did you learn to love? Not about my money
Did you learn to love? Did you learn to love?
