(Chorus)

I remember the first glance  
I remember the first romance  
I remember the first dance  
When I fell in love with you  
When I fell in love with you  
When I fell in love

(Verse 1)

I thought that I would never know love  
I thought that I would never know touch  
Then you came and awakened me  
Then you came unlocking me  
I've never known a love like this  
You've shown the truth behind the myth  
The Mystery

Repeat Chorus

When it's all be said  
When it's all be done  
When the race is run  
And this life overcome  
I will remember your love  
I will remember your love  
I will remember your love  
I will remember your love

Repeat Chorus
