I can't remember when I've seen someone like you
You're captivating, it's true
All eyes on you my dear they're stuck to you like glue
Anticipating each move
Grace beyond beauty
Mysterious, too
No wonder she hates me
It's cruel

There's a pain underneath her
That makes her just a bit more forlorn
And her hate is directed at me
Don't you see and so obviously
This Rose has thorns

In case you're wondering I'd like to be your friend
Your bitterness never ends
I hope the time comes soon when you can smile at me
I guess that all just depends
Tell me your story
Don't hold any back
Take out your baggage
It's time to unpack

There's a pain underneath her
That makes her just a bit more forlorn
And her hate is directed at me
Don't you see and so obviously
This Rose has thorns

I can't remember when I've seen someone like you

You're captivating, it's true
All eyes on you my dear they're stuck to you like glue
