She's latin  
Highly attractive  
Leave you numb with one touch  
You stuck she leave you strung  
I been with her but no longer deal with her  
Can't take her home to momma but my father was  
feeling her  
Sensuous touch and such  
Men have killed for her  
Prisoners upstate who face many years for her are still  
in love  
Reminiscing she was fine and pure  
She burned Richard Pryor when he piped her raw  
She got good qualities despite her flaws  
She will be with you when you rise or fall  
Your nose wide open the final straw should've been  
when she stole Len Bias heart  
Her kiss can eclipse a shining star  
Time apart make you desire her more  
Sugar Ray couldn't even fight her off  
As soon as that blow hit him his title was lost  
She been abused by dudes who minds ain't strong  
Stepped on  
Cut by niggas tryna get on  
She resilient, real good at hiding her scars  
A Chameleon who blends in as life goes on  
Men with millions fly her all over the world she  
stimulating  
Women hate when she in their man faces  
Situations tend to get crazy when you fiend for her  
Scheme for her  
Willing to bleed for her  
I seen brothers loose everything for her  
In some ways it became karma  
I'm at the point in my life where I don't need drama  
I just wanna chill  
Where she go the heat follow  
Niggas in the street want her but she be frontin' they  
understand that to bag that you need money  
I was a young nigga hustling with jewelery on that she  
bought me

Rappers lie but the truth is Corey  
Knew the rules and accepted them I respected her  
So I knew mixing business with pleasure was a  
detriment to everything I represent  
We needed our own space so she got her own place  
and gave me a key don't hate  
Or think you could take her from me  
It was your money she was bringing to me  
I was content she convinced me to take her OT  
Her persuasion over me replaced my own dreams  
could'nt be fulfilled  
She was saying don't sleep  
She had me on lock 'til the day I broke free of her  
schemes  
I was flipping for things I don't need  
Plus she fucked a lot of people close to me

While she with the next man getting crushed frequently  
There was a time where she was everything it seems  
but the end don't justify the means to me
