Joy, I see softly sleeping
Joy, you're safe in my keeping
Joy, open my eyes with your smile

Joy, darkness behind you
Gone, never to find you
We'll walk through the shade
With a melody

Eyes brighten the skies
Lips I long to kiss
Do you realize I love you
Over and over and over again
I wanted to tell that I loved you
But I'm keeping it in
Gee, I love my baby

Joy, don't ever leave
Stay, make me believe
My world is sunny when you're with me
My world is sunny when you're with me

Don't ever leave me, baby, baby
Don't ever leave me, baby, baby
