Let's go
(Go go go go go go go go go)
Let's go
(Go go go go go go go go go)
Let's go
(Go go go)
Let's go
(Go go go)
Let's go

Everybody in the place come on
We got the ball let's take it home
When the whistle blows I'm in my zone
I got no competition on this microphone

Just give me the ball and I'll take it home
When they can't catch me cause they're way too slow
You already know
Every time I hit the field I put on a show
But it's easy to me cause I'm a pro
Everybody get up on your feet let's go!

Let's go
(Go go go)
Let's go
(Go go go)
Let's go
Everybody in the place come on
We got the ball let's take it home

Let's go
(Go go go)
Let's go
(Go go go)
Let's go
Everybody in the place come on
We got the ball let's take it home

The crowd's goin' wild, and I can't help but notice
But I gotta keep playing, gotta stay focused
All the cheerleaders just waved
I thought I told you girls I gotta concentrate

Hold up, wait, ref blows the whistle
There's a girl in the front row that I gotta get to
Hey, here's my number and my name
We should hang
But first I gotta get back to the game

Let's go
(Go go go)
Let's go
(Go go go)
Let's go
Everybody in the place come on
We got the ball let's take it home

Let's go
(Go go go)
Let's go
(Go go go)
Let's go
Everybody in the place come on
We got the ball let's take it home

Should I fake right, take the ball left?
Or should I stop and let the other team catch their
breath?
Cause it's a little too easy, I can't stop now
Cause the whole team needs me

Believe me, I'm two steps ahead of the game
On top with my status can never be changed
Now I know you're having fun
Stand up, watch close
Let me show you how it's done

Let's go
(Go go go)
Let's go
(Go go go)
Let's go
Everybody in the place come on
We got the ball let's take it home

Let's go
(Go go go)
Let's go
(Go go go)
Let's go
Everybody in the place come on
We got the ball let's take it home

Put your hands up
And if you really feel it
Come on stand up
Stand up
(Go go go)
Stand up
(Go go go)

Put your hands up
And if you really feel it
Come on stand up
Stand up
(Go go go)
Stand up
(Go go go)

Let's go
(Go go go)
Let's go
(Go go go)
Let's go
Everybody in the place come on
We got the ball let's take it home

Let's go
(Go go go)
Let's go
(Go go go)
Let's go
Everybody in the place come on
We got the ball let's take it home

Let's go
(Go go go)
Let's go
(Go go go)
Let's go
Everybody in the place come on
We got the ball let's take it home
