### "In My Tea"

Watching through the door  
Look at a mirror  
In my tea  
Watching it in my cup  
Change a little my make-up  
In my tea  
Moving reds and pinks  
Fun factory of lipsticks  
In my tea  
And this green, it's too much  
Turning off my dark blush  
I can change the weather  
I make a thunder  
In my tea  
Any place for my hair?  
Yes, only in the air  
There's not so much place  
I get a strange face  
But there's no wrong or right  
It's a question of lights  
Watching through the door  
Wanna get some more  
With my tea  
My mother is coming with my father  
They're laughing in my tea  
Oh, they're looking so sweet  
I drink them  
With a strong beat  
Oh, in my tea  
Drink my tea  
And watch over the sea
