"They Came And You Were Silent"

Come to me
Children of Mother Earth
Worshippers of the gods
I have for you
Your redemption

Run- the gods are not with us now
Run- for our powers are useless
Call for a saviour
Realise the voices in the void

What are these things?
Will not our god save us?
We called and they came
And you were forever silent
Why?

Run - your god is not with you now
Run - your powers are useless
Call for a saviour
Realise the voices in the void
