? the perfect eyes of science  
are coming to the scene  
All the perfect eyes of science  
are going down my dream  
I'm very dangerous  
I forgot my soul  
you said  
I'm not a divin world  
You're very crazy  
You make me understand  
You make me understand  
all the difficulties you see  
I'm very very ill  
come on

Let's go out  
Let's go on  
Let's go eat right now  
Wait in heaven and see  
Let's go back abraod  
And far bakcward  
And you're very tired of love  
and me  
And it's hard to find  
a little lesson of love

? the perfect eyes of science  
are blinking and they're green  
We're walkin in silence  
as little simple things  
I saw you on a photograph  
You forgot my soul

? the perfect eyes of sciecne  
are sleeping in between  
We're walkin in silence  
You're beautiful and dangerous  
you forget my soul  
I'm very very ill
