Trade off your art for magazines  
(And pop culture references)  
They're movie stars and drama queens  
(They're some differences)  
But you got a long long way to go  
This world won't make it easy for you  
When you're dancing at the show  
Turn it up what have you got to loose?

Do you want to be a rock star baby  
Do you want to see the whole world tonight  
Do you want to be free  
Never give up boy never give in girl

Give ear to the ones who rule the radio  
(They wrote your favorite song)  
They got beats made in their bedroom studio  
(Tracking all night long)  
So turn a black tie affair into a party  
(You can do it too)  
And all the children sing along  
This world won't make it easy for you  
When you're dancing at the show  
Turn it up what have you got to loose?

Do you want to be a rock star baby  
Do you want to see the whole world tonight  
Do you want to be free  
Never give up boy never give in girl
