Something working inside me
I just have to agree Oh yea
It's a simple melody
One that gets you on your feet oh yea
Something that makes you feel alive
Something that makes you want to cry

Tune up the music lets make it louder
Get up and dance don't worry about her
Tune up the music all around us
Though are neighbors might shush us
Tune up the music ohh
Tune up the music

I love to get up and dance
Hang with my favorite band oh yea
Radio or Ipod nano
I really don't care what it is Oh yea
Something that makes you feel alive
Something that makes you say alright
Repeat Chorus 2*
