The warm comet lodging in my chest
Goes toward the beginning's beat...

My trembling fingers quietly hold a wish
Cowering because of the inescapable past
Wanting to run away

Even if it's a small, fading light
I want to chase after it, as if it was a star
Accepting everything, no matter how high

Dancing in the Galaxy are the whispers of an Angel
Following these certain memories
After this, surely
The door to the truth will be born
No matter what kind of cold darkness
I'm surrounded with
I want to know... nothing will stop me

"There's nothing to lose" embrace the small shoulder
closely
Because those painful feelings are harsh
Even if they don't return...

Now I want to change. Running through this trance
But I realize that "it will be alright"
Because you always laughed next to me

Falling into the sky dripping into the sword
Seeing these feelings to the end once again
Nearby there is a gentle feeling
Waiting to be touched
I want to solve the truth
Of your heart's profile
I know that, nothing will leave me

I started to feel "I want to protect this"
Continuing from this place toward tomorrow
The dream to soar
Isn't ours alone...
I don't forget

Whisper of an Angel
Following these certain memories
After this, surely
The door to the truth will be born
No matter what kind of cold darkness
I'm surrounded with
I want to know
Nothing will stop me...
