I believe in the world  
When I see the beauty in a girl like you  
And I believe that all my dreams of yesterday  
Are one touch away

[Chorus]

Wanna be your final destination (I wanna be your town)  
Wanna be the station where you jump off the train  
Let's make a story about you and me  
This love is meant to be

I believe that life  
Is giving back to you what you sacrifice  
All the tears I cry disappear with the love I see  
Right next to me

[Chorus]
