Skar the fire son  
Pet the smiling one  
Woo the sleeping one  
R the crying one  
Hu-hviss my little one  
R-r my crying one  
Ligg-ligg my tired one  
Rura sleeping one  
Touch a feal, you blind a must  
Soft the skin of the warmest rust  
Cause nothing blows in the faraway  
I go away, go away  
Past the hills, past the day  
Touch a feal, you blind a must  
Soft the skin of the warmest rust  
Cause nothing blows in the faraway  
I go away, go away  
Past the hills, past the day
