I call you up
They tell me you're not home
You're goin' out
When you know I'm here alone
Ask 'em where you were
They said you're out with Jack
I left a message, boy
You never called me back

CHORUS

Time, time
I just wanna spend
Time with you
A little time, time
I just wanna spend
Time with you
A little time with you
That's all
Time, time, time, time

(All I want is a little time)
Time, time, time, time
(A little time)
Don't understand
Your treating me this way
Breaking my heart
It hurts more every day
I need you, boy
To make me smile again (make me smile again)
I've got to see you
So please, just tell me when
(CHORUS TWICE)
That's all
Time, time, time, time
(Repeat)
(Chorus repeats until fade)
