VERSE ONE:

The word of love is a hell of a word to be saying
You don't know how to use it with caution
It is a death defying game to play
And when your'e thinking of
The one you want to get next to
Show em' its a mutual feelings
coz these are the words they'll say

CHORUS:

Hey baby your'e the only one I'm on
They give a few lines from a slow song
How do ya thinka ya got it going on so strong
There can't nothing in this world go wrong
They say baby I am yours
So go and close the bedroom door
Make sure the blinds are closed to keep you cummin up
out to clothes
The next day they don't know you no more
So baby take your time
Help ya ease ma mind
Every little chance ya get ya wanna do me
It's so hard to find a one of a kind
And when these words are said
Don't let em' get to your head
Once the lights go out you'll hear 'em scream and
shout
The next day somebody else is misled

VERSE TWO:

Do you love
II TRU VOICE (Yea Imma ask you stuff)
Is he someone you can count on
Someone who's there for you
Someone who will be true no matter
What the situation may be
You know what they say from above
This question is asked for a reason
Some of them wanna play
And then go
They're separate way and
Hey these are the words they'll say

CHORUS:

Hey baby your'e the only one I'm on
They give a few lines from a slow song
How do ya thinka ya got it going on so strong
There can't nothing in this world go wrong
They say baby I am yours
So go and close the bedroom door
Make sure the blinds are closed to keep you cummin up
out to clothes
the next day they don't know you no more
So baby take your time
Help me ease ma mind
Every little chance ya get ya wanna do me
It's so hard to find a one of a kind
And when these words are said
Don't let em' get to your head (oh yeah)
Once the lights go out you'll hear 'em scream and
shout
The next day somebody else is misled

KRAYZIE BONE:
