All that I need is to be loved
Can't you take this out of me?
All I want is to be near you
Oh my God, how can I love thee?

All that I need is to be loved
Can't you take this out of me?
All I want is to be near you
Oh my God, how can I love thee?

Oh my God

No one other will need what I need
No one other can feel what I must feel

All that I need
All that I need
All that I need
All that I need
All that I need
All that I need
All that I need is to be loved
