I can't stand to see the morning come  
While the evening rain's still falling  
I can't stand to see the morning come  
While the evening rain's still falling  
I can't stand to see the morning come  
While the evening rain's still falling  
Like the day  
Saw the same  
All the problems  
I follow  
I run away  
Saw the plane  
The grey life  
Tomorrow  
But I can't stand to see the morning come  
While the evening rain's still falling

But I can't stand to see the morning come  
While the evening rain's still falling  
I close my eyes  
It doesn't work  
I can hear tomorrow  
I can't stand to see the morning come  
While the evening rain's still falling  
I can't stand to see the morning come  
While the evening rain's still falling  
I can't stand to see the morning come  
While the evening rain's still falling
