"One Time We Lived"

Visit "[One Time We Lived](#)" on MotoLyrics.com

One time we lived
Like the time would never leave
One time we had
Luxuries and grief
We couldn't see an end

There was no end in sight
The time has
The time has pulled us down
Bringing darkness to the light

I remember the way you looked
The sun has set
The lights went down

I remember the light in your eyes
You remember at all?
You remember at all?

Isn't that what we wanted?
Isn't that what we wanted?
Isn't that what we had?
Do we know what we need?
Now that is gone

Isn't that what we wanted?
Isn't that what we wanted?
Isn't that what we had?
Do we know what we need?

One time we lived
Like the time would never end
Like the time would never end
And now it brakes
And now it brakes

Will live us all lone again
Will live us all lone again
While the water is cold
While the water is cold

See just what I lost

See just what I lost
And dive into the night
And dive into the night

I remember the way you looked
The sun has set
The lights went down

I remember the light in your eyes
You remember at all?
You remember at all?

Isn't that what we wanted?
Isn't that what we wanted?
Isn't that what we had?
Do we know what we need?
Now that is gone
And now that is gone

Well, Isn't that what we wanted?
Isn't that what we wanted?
Isn't that what we had?
Do we know what we need?
Now that is gone

Isn't that what we wanted?
Isn't that what we wanted?
Isn't that what we had?
Do we know what we need?
Now that is gone
