Moby
"Pale Horses"

Put me on the train, send me back to my home
Couldn't live without you when I tried to roam
Put me by the windows, let me see outside
Look at the places where all my family died
Where all my family died, all my family died
All my family died

Leave me by the churchyard, leave me on my own
The storm will come and take me back to my old home
Put me by the window, let me see outside

Look at the places where all my family died
All my family died, all my family died
All my family died

Put me on the train, send me back to my home
Put me on the train, send me back to my home
Put me on the train, send me back to my home
Put me on the train, send me back to my home
Put me on the train, send me back to my home
Put me on the train, send me back to my home
