Savor this moment tomorrow never comes!

Some live life like, they live they die  
No opposition tried, defied,  
Too scared, inside they hide  
The clock is winding down your number's coming up,  
Life is calling your name but are you man enough

Wake up- Stand up Get your head in the game  
Ignore the pain Realize the prize  
Its all there is to gain  
Wake up- Stand up Take control of your mind  
Define the line this time and find  
You won't get left behind

Watch the time fly by- deceived, free your mind  
Nothing changes, everything's a lie- release the pain  
inside  
Just looking for a way to unwind- deceived, free your  
mind  
All is fake, nothing is alive- release the pain inside

Savor this moment tomorrow never comes!

A new day in this relay,  
No instant replay or delay  
Rewind, stop just play  
Sky burns bright white light  
Squinting tight to fight the minimal eyesight  
Expect that someone might!

Try to bring you down  
Motives full of pride  
Don't ever let them steal  
What you are inside

One last chance to dance, enhance this life  
Your current circumstance  
Remade, reborn, resist the backwards glance  
Everyday is a new day- make it different today  
Don't look back to the old way  
It's time for you to!
