I might disintegrate into the thin air if
you'd like.
I'm not the dark center of the universe like
you thought.
I might disintegrate into the thing air if
you'd like.
I'm not the dark center of the universe like you thought.

Well it took a lot of work to be the ass that
I am, and I'm real damn sure that anyone
can equally easily fuck you over.
Well I died sayin something but didn't
mean it, everyone's life ends but no one ever
completes it. Dry or wet ice, they
both melt and you're equally cheated.

Well it took a lot of work to be the ass that
I am, and I'm real damn sure that
anyone can equally easily fuck you over.
Well an endless ocean landin on an
endless desert/well it's funny as hell but
no one laughs when they get there
If you can't see the thin air then why the
hell should you care.

Well it took a lot of work to be the ass that
I am, and I'm really damn sure that
anyone can equally easily fuck you over.

Well I'm sure you tell me you got nothing
to say but our voices shook hands the
other day. If you can't see the thin air,
what the hell is in the way.

I might disintegrate into the thin air if
you'd like.
And I'm not the dark center of the
Universe like you thought.

Well it took a lot of work to be the ass that
I am, and I'm really damn sure that

anyone can equally easily fuck you over.
Well an endless ocean landin on an
endless desert/well it's funny as hell but

If you can't see the thin air then what the hell is in the
way.

Well it took a lot of work to be the ass that
I am, and I'm really damn sure
that anyone can equally easily fuck you over.
Well god sayin somethin but he didn't
mean it, everyone's life ends but no one
ever completes it, dry or wet ice they both
melt and you're equally cheated.

Well it took a lot of work to be the ass that
