I'm the same as I was when I was 6 years old  
And, oh, my God, I feel so damn old, I don't really feel  
anything  
On a plane, I can see the tiny lights below  
And, oh, my God, they look so alone, do they really feel  
anything?  
Oh, my God, I've gotta, gotta, gotta, gotta move on  
Where do you move, when what you're moving from  
Is yourself, is yourself?

The universe works on a math equation  
That never even ever really even ends in the end  
Infinity spirals out creation  
We're on the tip of its tongues, and it is saying

Well, we ain't sure where you stand  
You ain't machines, and you ain't land  
And the plants and the animals, they are linked  
And the plants and the animals eat each other

I'm the same as I was when I was 6 years old  
And, oh, my God, I feel so damn old, I don't really feel  
anything  
On a plane, I can see the tiny lights below  
And, oh, my God, they look so alone, do they really feel  
anything?  
Oh, my God, I've gotta, gotta, gotta, gotta move on  
Where do you move, when what you're moving from  
Is yourself, is yourself?

The universe works on a math equation  
That never even ever really even ends in the end  
Infinity spirals out creation  
We're on the tip of its tongue and it is saying

Well, we ain't sure where you stand  
You ain't machines, and you ain't land  
And the plants and the animals, they are linked  
And the plants and the animals eat each other

Well, oh, my God and, oh, my cat  
I told my dad what I need

Well, I know what I have and want  
But I don't know what I need  
Well, he said, he said, he said, he said  
"I'm glad we're going, I'm dead"
