looks like accounting's not accountable  
for anything or anyone at all...  
johnny took the fall  
johnny took the fall  
i know the horse was fast, ran the real big track  
one by one without a heart attack oh no  
a type line just went slack  
a type line just went slack  
he's got a race car grin all smiling chin  
your words are no longer gonna bother him that much  
he's got the midas touch  
he's got the midas touch  
hey now what's the scoop on what's his face  
got a backwater nothing but he runs the place from  
halls  
runs it from the halls
