Everything that keeps me together is falling apart/i've
got
This thing that I consider my only art of fucking people
over.
My boss just quit the job says he's goin out to find blind
Spots and he'll do it.
The 3rd planet is sure that they're being watched by an
Eye in the sky that can't be stopped.
When you get to the promise land your gonna shake
that
Eyes hand.
Your heart felt good it was drippin pitch and made of
wood.
And your hands and knees felt cold and wet on the
grass to me.
Outside naked, shiverin looking blue, from the cold
Sunlight that's reflected off the moon.
Baby cum angels fly around you reminding you we
used
To be three and not just two.
And that's how the world began.
And that's how the world will end.
A 3rd had just been made and we were swimming in
the
Water, didn't know then was it a son was it a daughter.
When it occurred to me that the animals are swimming
Around in the water in the oceans in our bodies and
Another had been found another ocean on the planet
Given that our blood is just like the atlantic.
And how.
The universe is shaped exactly like the earth if you go
Straight long enough you'll end up where you were.
Your heart felt good it was drippin pitch and made of
wood.
And your hands and knees felt cold and wet on the
grass to me.
Outside naked, shiverin looking blue, from the cold
Sunlight that's reflected off the moon.
Baby cum angels fly around you reminding you we
used
To be three and not just two.
And that's how the world began.

And that's how the world will end.
