Head up in the clouds
So much you can't see
I'm getting dizzy
Looking around
Once it was easy
As nothing
To take leave
Far from the smog
On terra firma
Goings on what's going on
On here on the third one
The third one
Terra firma's gone to smog
At a foolish place
To any one place
On the overgrown path
The future fast
The more you
Want it to last
Terra firma's gone to smog
Take me far from the smog
On Terra Firma
I'm getting dizzy
Looking around
Once it was easy
Terra firma's gone to smog
