Moffatts
"Believe In Your Dreams"

They said Elvis was the devil
His music burned your soul.
The Beatles, just a flash in the pan
Their rock would never roll.
They said no man would ever fly,
But Wright proved them wrong.
And Armstrong took a giant step
To prove that dreams belong.

Believe in your dreams and they'll come true,
Follow your heart in whatever you do.
The sky is the limit so do what feels right;
You make the choices.
Believe in your dreams and they'll come true,
Follow your heart in whatever you do
Dreams and wishes do come true.

They said Columbus was a fool,
To sail across the sea.
And Martin Luther King was a moron
To want equality.
Now Edison was doomed to fail,
But he set sights above.
And Mother Theresa lead the way

With peace hope and love.

Believe in your dreams and they'll come true,
Follow your heart in whatever you do.
The sky is the limit so do what feels right;
You make the choices.
Believe in your dreams and they'll come true,
Follow your heart in whatever you do
Dreams and wishes do come true.

Believe in your dreams and they'll come true,
Follow your heart in whatever you do.
The sky is the limit so do what feels right;
You make the choices.
Believe in your dreams and they'll come true,
Follow your heart in whatever you do
Dreams and wishes do come true.

Believe in your dreams and they'll come true,
Follow your heart in whatever you do
Dreams and wishes do come true.
