[Chorus:]

Say'n I love you
It's the hardest thing to do
And if I ever do
Girl I'll always be true

I may not be the best looking guy you ever knew
But I can show you love, that will always be true
And when your skies turn gray, my love will guide the
way
And if these words that I hold, could only be told.

[Chorus]

And when your tears fall to the ground
I will pick you up when you're feeling down

[Chorus]

And when your tears fall to the ground
I will pick you up when you're feeling down

[Chorus]
