VERSE 1:

Welcome to the flyest shit out the speakers
They couldn't beat us now they tryna be us
Went from private to my ranking in prestigus
The good life poppin moet on the beaches

In december somewhere in LA weather
Top down Call me Money May Weather
Air Jordans got me 10 feet of the ground
I'm just a lost one searching till I am found

& everytime I see love my heart it just breaks
So I gotta be great, no more mistakes
I willing to give it all no matter how much it takes
When you make it at your lowest then it gotta be fate

Believe, listen to your heart as it beats
Hope is not for the weak hope to be free
Lose hope, Gain Defeat & then you see
Greatness will never fail victory

HOOK:

I been searching my whole life
Just trying to make things go right
Look me in the eyes
Tell me what do you see
When the smoke clears
The only thing that I see is

LOVE, MONEY, POWER (X4)

VERSE 2:

Unless we throw kick backs & we in need of sex

I been winning check my record homie
& that's LA for life & I ma rep it on me!

I swear this is the life, Yeah we living it
These kids need a hope & I'm the one to give them it

Been great all my life, that reason is you

This made me, every sin in me
Figured all I been serching for
