Fell on her times
Purely disfunctional
Tried so hard to find it
Tried so hard to find it
What comes and goes

Please still deliver me
From myself
All is forgiven me
Someone else
God don't know
Time will tell
We don't know
Time will tell

Prayed by desire
Megellan story lines
Tried so hard to find it
Been so cold beside you
It comes and goes

Please still deliver me
From myselfb
All is forgiven me
Someone else
God don't know
Time will tell
What we don't know
Time will tell

And what did you want
And what did you need
And what if we all came clean
Im questioning life
Im questioning you
And what if we all came through
And what did you want
And what did you need
And what if we all came clean
