Heaven haunts me kill for a cigarette  
Heaven is all that i got  
My god left me without one word of warning  
My god left me waiting is all that i got  
Ive seen your face before  
Ive seen your anger crashing down  
All my life ive seen your babies  
Crashing to the ground  
My girl brought me confort to keep me stable  
Needles paid for confort is all that ive got  
My god left me without one word of warning  
My god left me  
My god is all that i got  
Ive seen your face before  
Ive seen your anger crashing down  
All my life ive seen your babies  
Crashing to the ground  
Don't be afraid  
Were all afraid
