Meltdown in the furnace
Crumble down

You don't need eyeballs that see everything distorted
Beautifully transparent glass spheres could suit you
well

Dig them out
Tear it out
Rumble down

You should split your lying tongue
And show it like a snake

You're a lie
All lies

Your inside kusarihate houkai shite yuku
Your surface hyoumen dake wa kagayaite iru

It's a pity that you don't notice

Shinshoku sarete iru no ni anata wa kizukanai
Asamashii gaki domo ga anata no naka de

Your inside uji ga ubawaku kurutta atama wa
Your surface nata furiotoshi kusatta atama wo
