What'd you come here for
All the pills and powders got me high
All the way
And I don't feel right
The pain it slowly got me by
All the way

I'd like to like to disappear
You've got to wake me wake me
I'd like to fall don't catch me here
You've got to wake me wake me
I'll fall away

And it's gone too far
And these pictures smash and spin like stars
All away
And it drove insane
Feel the memories crash and splash and stain
All away
I'd like to like to disappear etc.
Oh fall away
Oh fall away

Wake me
Tired
I'd like to like to disappear etc.
Fall fall away
Fall fall away
Fall fall away
