Sleep on the left side
Leave the right side free
Hope gets salted
As those around you leave
WeÂ're gonna let it up like India House on fire
WeÂ're gonna let it go
And let it go higher
Let it go

Sleep on the left side Houcam is our call WeÂ're gonna take it That virgin fall ThereÂ's gonna be some When we let it up And let it breathe And all the holes Doused with grief And planets up And time to leave No Asian fire Will leave us dyre Born again to Asian #lion# There comes no telling How it will be What's turned to smoke Was in our hearts And planets up

Foot racing from kitchens
Down alleys through gulleys
Meeting every second hour
Never to come to terms with?
Foot racing to Putabin Key
'cause there's too much going on
To jeer on green goddesses, local dignitaries and labor? counselors?
Always #in touch# by #way of# the community organ? we're about to be #orphaned#

Sleep on the left side

What we have lost

Keep the sword hand free Arrrh, wuttevess gonna be is Gone nu be For the 7th time WithOUT, tumbling disyre Easy dizease WeÂ're gonna let it known And let it go slow, let it go
