Verse 1:

hi, my girl
where is your creation?
I see your light,
it's now my salvation
take me on
bring me into your soul
here there's a war
i will find the love...

Chorus:

tell me another way, another way
tell me another way, another way
tell me another way, another way
tell me another wayyyyyyyyy

verse 2:

my alien-girl
show me your impressions
have your love
is a joyful sensation
take me aboard
on your ship of love
and save this world
'cause we will live so long...
