(Once a day every day all day long)  
When you found somebody new I thought I never would  
Forget you for I thought then I never could  
But time has taken all the pain away up to now I'm down  
to hurtin' once a day

Once a day all day long and once a night from dusk till  
dawn  
The only time I wish you weren't gone is once a day  
every day all day long  
[ strings ]  
I'm so glad I'm not like a girl I knew one time  
She lost the one she loved then slowly lost her mind  
Shee sat around and cried her life away lucky me I'm  
only crying once a day  
Once a day all day long...  
Once a day every day all day long
